

ANUP S B

Software Engineer · Full Stack Developer (MERN) · React Native Developer

Bengaluru, Karnataka | +91 93534 82234 | anupsb2003@gmail.com | [LinkedIn](#) | [LeetCode](#) | [HackerRank](#)

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student (CGPA 8.3, 2026 pass-out) with strong programming and problem-solving skills, solid OOP concepts, and the ability to write SQL queries confidently. Hands-on experience with Java, Python, and JavaScript (React.js / Node.js) across full-stack web, mobile, and AI/ML projects, including a React Native industry internship. Seeking a Software Engineer role to apply strong fundamentals in data structures, algorithms, and object-oriented programming to build scalable, user-focused solutions.

TECHNICAL SKILLS

Programming Languages: Java, React, JavaScript (ES6+), TypeScript.

Web / App Development: React.js, Node.js, Express.js, React Native, HTML5, CSS3, REST API

Database & SQL: SQL (query writing), MongoDB

Core CS Concepts: Object-Oriented Programming (OOPS), Data Structures & Algorithms, Computer Architecture, Operating Systems, Problem Solving

Tools & Practices: Git, GitHub, VS Code, Power BI, API Integration, Debugging, Redux Toolkit

WORK EXPERIENCE

React Native Intern | Anugraha Exceed Pvt. Ltd. · Bengaluru

Jul 2025 – Oct 2025

- Built and shipped React Native screens for a production mobile app, ensuring consistent UI/UX across Android and iOS.
- Applied strong OOP and programming fundamentals to debug and resolve UI/UX issues, improving component reliability; recognized for attention to detail during QA cycles.
- Collaborated in an Agile team, integrating features via REST APIs and contributing to sprint deliverables on schedule.

PROJECTS

E-Commerce Platform | MongoDB · Express.js · React · Node.js · JWT · REST API

Jan – Mar 2025

- Engineered a full-stack MERN e-commerce application with JWT auth, product customization, shopping cart, and order management.
- Designed RESTful APIs and SQL/NoSQL data queries connecting the React frontend to the Express/MongoDB backend, applying OOP design principles.

Medical Q&A Chatbot | Python · LLaMA-2 · LangChain · FAISS · Hugging Face

Aug – Dec 2024

- Developed a multilingual (English & Kannada) AI chatbot for medical Q&A using LLaMA-2 with FAISS vector search for fast retrieval, including disease-diagnosis and nearby-doctor recommendation logic.

AI Crop Prediction System | React · Firebase · IoT Sensors

Aug – Dec 2024

- Built an AI-powered crop prediction system using React, Firebase, and IoT sensors to monitor soil and environmental conditions.
- Collected real-time sensor data and provided crop recommendations through a user-friendly web dashboard.

EDUCATION

B.E. Computer Science · CGPA: 8.3 · 2026 pass-out | Alliance College of Engineering & Design, Bengaluru Dec 2022 – Jun 2026

PUC — Science · 86.16% | Kumadvati PU College, Shikaripura

Jun 2020 – Jul 2022

SSLC · 88.64% | St. Mary's High School, Hirekerur

Jun 2019 – Aug 2020

CERTIFICATIONS & ACHIEVEMENTS

- React Native Internship — Anugraha Exceed Pvt. Ltd. (Jul 2025 – Oct 2025) [link](#).
- Data Structures — UC San Diego
- Digital Marketing & eCommerce — Google
- Solved 235+ questions on LeetCode (Data Structures & Algorithms, Problem Solving, SQL)
- Participant — PCU IDEATHON 2.0, National-Level 24-hr Innovation Challenge, Pimpri Chinchwad University (Apr 2025)
